

ASEA®

Cell Performance: REDOX^{Mind}, REDOX^{Mood}, REDOX^{Energy}

Frequently asked questions

What is the ASEA Cell Performance category?

Cell Performance is a new category of products formulated with your health and wellness in mind. Based on redox principles, these products are easy-to-use, on-the-go, and deliver a healthy sustained boost Powered by Redox™. With proprietary ingredient blends that help you perform at your best physically and mentally by targeting performance at the cellular level, ASEA's Cell Performance category is designed to complement and support a healthy lifestyle. These tasty packets are perfect for supporting your daily performance, whether at work or at the gym.*

How many Cell Performance products are there?

There are three Cell Performance products:

- REDOX^{Mind}
- REDOX^{Mood}
- REDOX^{Energy}

What is the best way to use Cell Performance products?

We recommend mixing ASEA Cell Performance products with 8-12oz of any liquid except alcohol. All three products have the same directions of use.

Do I need to consume the entire 8-12oz at once?

For best results, we recommend drinking the entire contents of a package in 15 minutes.

*These statements have not been evaluated by the Food and Drug Administration. These products are not intended to diagnose, treat, cure, or prevent any disease.

How many calories are in each serving of Cell Performance products?

Each drink mix contains five calories per serving.

Can these drink mixes be used with ASEA® Redox Cell Signaling Supplement?

We recommend using ASEA® Redox Cell Signaling Supplement beforehand and then waiting 15-30 minutes before consuming any Cell Performance products. Mixing anything with ASEA Redox can deactivate the redox molecules and not allow them to perform at full capacity.

Why do the Cell Performance products not fully dissolve?

Our Cell Performance products are made from natural herbs and do not contain added fillers, artificial colors, or artificial colorants. Because the product is more natural, some ingredients may not fully dissolve in water.

Can the Cell Performance products be mixed and consumed together?

Yes. The products are formulated to work independently, but can be used together. We recommend you try each product individually before mixing together.

Are the Cell Performance products vegan?

Yes, all three products are 100% vegan.

Do the Cell Performance products contain any artificial colors or artificial sweeteners?

No, the Cell Performance products do not contain any artificial colors or artificial sweeteners. We use natural stevia extract to sweeten the products.

Are these products free from allergens?

All three products contain zero of the top eight common allergens, which are identified by the FDA as: milk, eggs, fish, shellfish, tree nuts, peanuts, wheat, and soybeans. These products are dairy-free, gluten-free, and soy-free.

How many stick packs are included in a carton?

There are 30 stick packs/servings per carton for all three Cell Performance products.

How much does each product cost?

In the US, the recommended retail price for each carton of Cell Performance (REDOXMind, REDOXMood, or REDOXEnergy) is \$62. The wholesale price is \$50.

This price is the same for all three products.

Are these products to be taken daily, like vitamins and minerals?

For best results, these products can be taken daily. For maximum benefits, it is recommended that users take the products for an extended period of time to achieve a compound effect. A typical user will see benefits within one to two hours after use.*
